District Forester Rutledge responded to Mr. Driggs' address, extending thanks for the courtesies which Mr. Driggs had extended to the supervisors. The meeting was then formally opened by Supervisor Guy B. Maine of the Payette national forest, in the chair.

Discussion of the relationship between the Washington headquarters of the forest service, the district offices of the service, and the field units was taken up.

Two Drinks Were His Downfall, Court Hears

E. Bailey of Great Falls, Mont., pleaded not guilty to a charge of drunkenness and told Judge L. J. Hollister in city court, that he had been the victim of circumstances. He met a friend, he claimed, who offered him a drink. Firmly and emphatically he refused, telling the friend that he was sick. The friend insisted, declaring that a little "shot" of liquor would help his condition. Bailey said he took two drinks and then began to feel doubtful as to whether or not he would be able to reach his home.

He said that when arrested he did not know what he was doing, but knew what he would like to do. Bailey was found guilty and was sentenced to \$50 fine or 50 days in jail. "I won't pay a cent, judge, I'll stay in jail," he said after sentence had been passed.

BOMBS VS. SHIPS WILL BE TESTED

Superiority of Battleship and Aircraft Will Be Settled in Near Future

WASHINGTON, Feb. 7.—The controversy as to the superiority of battleships and aircraft, may be settled through tests, naval officers said Sunday.

Brigadier General William Mitchell, assistant chief of the air service, who told a congressional committee that developments in aircraft had doomed the present dreadnaught, and other air service officers are understood to have issued a virtual challenge to the navy department to permit them to prove their contentions. The navy department is a believer in the superiority of the capital ship and naval officers believe, will accept the challenge in the hope of checking the controversy.

General Mitchell has asked his superiors to send a request to Secretary Daniels that two torpedo boats, two supply vessels and one battleship be designed for the tests.

Naval officers express the belief that such a request would be refused because of the cost involved and cost of fitting the first vessels with radio control apparatus.

There is a strong likelihood, however, naval officers said, that the old battleship force, fitted with radio control gear and capable of being maneuvered with no one on board, will be used as a target for aerial bombs after experiments now being conducted on the control devices are completed.

Another suggestion is that large lighters be towed at high speed and used as targets. Many officials believe any test of the ability of the aviators to hit naval vessels would not be conclusive unless the target were moving at least twenty knots an hour.

It was generally conceded, however, that such experiments as General Mitchell has proposed would give an idea of the ability of the aviators to actually hit a moving vessel.

Army aviators maintain that any surface vessel can be destroyed by a plane attack, citing the tests on the battleship Indiana with dummy bombs as proof.

Navy officers assert that it is one thing to hit a battleship with a bomb and another to hit the same ship moving.

Boy Struck by Auto Truck, Seriously Hurt

James Johns, nine year old son of Mr. and Mrs. W. Johns, of Jefferson avenue and Twenty-second street, injured yesterday in a truck accident, will recover, according to doctors from the hospital.

Johns was seriously injured yesterday afternoon when a truck of the Alden Transfer company, driven by George Fisher, struck him. The accident happened in front of the boy's residence at 130 yesterday afternoon.

Sergeant A. H. Stephens, of the police department, investigated the accident. It is claimed that the truck which ran over the boy was being towed to the city by another truck.

Johns, in company with Gilbert Marriott and Elvin Taylor, were crossing the street, but as Johns was behind them, he did not see the truck hit him. In the opinion of the police department, the boys passed between the two trucks.

Fisher stated that he did not see the youngster until after the accident had happened and that he could not state whether the first truck or the one in tow was the one which struck the youngster.

Traffic through the canyon for the past week has been largely with sleighs, it is claimed.

THREE KILLED IN MONDELL JOINS MOVE TO DISARM

Constable Blown Up and Two Wounded During Isolated Attack

BELFAST, Feb. 7.—One constable was killed and two others wounded by the explosion of a bomb thrown at them while they were on duty at Warren Point, near Bunkell, last night.

Dublin dispatches Sunday revealed that Saturday night that city experienced a sensation when explosions and continuous volleys, resembling sounds of a small battle, became audible from the suburbs. It developed that three ambulances had occurred, in one of which a four-year old child was killed.

INHABITANTS FLEE. The first ambush was near Merion square. Explosions were followed by rifle and revolver fire. Inhabitants sought their cellars, while pedestrians were stampeded. Three bombs had been flung at a lorry filled with soldiers. This precipitated an exchange of shots of several minutes without effect except for the wounding of two civilians by bomb splinters.

The second ambush occurred on the south side where lorries were bombed. A child of four was shot through the head and a woman was wounded. The third ambush occurred when two lorries were attacked in the south suburbs. A military officer was slightly wounded and some civilians, including a boy slightly injured.

REPORT FROM CASTLE. The Dublin castle report claims several civilians were hit in the first affair. Five civilians in the south side incident, and two young men in the third encounter.

The castle also reports near Clonmel, a patrol of the Devon regiment discovered civilians preparing an ambush. A sergeant received a bullet in the leg and a civilian and the wounding of a military sergeant.

Next Action Uncertain on Anti-Cigaret Bill

(Special Dispatch.) STATE CAPITOL, Feb. 7.—The southern anti-cigarette measure, which has been passed by the senate, is now before the house committee on manufacturers and commerce. There have been many inquiries as to when the bill will be reported for action by the house but nobody seems to know just when action will be taken. It is presumed that there will be a public hearing on the bill conducted by the house committee.

Representative Douglas of Weber, introduced a bill today fixing the fees to be paid by the state when judges appoint attorneys to defend persons who are without funds.

Representative Nicholson introduced a bill calling for the restoration of a bounty on rabbits, gophers and squirrels. He wants a bounty of 5 cents on rabbits. These bounties were repealed in 1919 when it was decided that the bounty on rabbits was unnecessary.

U. S. Should Take Lead in Crop Bureau Reports Falling

Plan to Get International Agreement

WASHINGTON, Feb. 7.—An international agreement for limitation of armaments is absolutely essential to the avoidance of bankruptcy by one of the more important nations of the world with its attendant measures of confusion and disaster, Representative Mondell of Wyoming, Republican leader, declared today, before the house war committee.

If an agreement is not reached in the near future, Mr. Mondell said, the fault will be that of America, as it forms the basis of the world's armaments.

"It is our duty to lead the way," he added, "because stronger nations are only too ready to take the lead in the world war if we do not."

U. S. Should Take Lead in Crop Bureau Reports Falling

WASHINGTON, Feb. 6.—Nearly ten million head of livestock were on farms in the United States on January 1, 1921, than a year preceding, according to estimates based upon reports of agents and correspondents of the bureau of crop estimates, United States department of agriculture. Horses decreased about 602,000 head, or 2.9 per cent; mules decreased slightly, 12,000, or 1 per cent; milk cows decreased 295,000, or 12.2 per cent; other cattle decreased 1,850,000, or 4.2 per cent; swine decreased 5,075,000, or 5.1 per cent; and sheep decreased 2,047,000, or 4.4 per cent.

The total numbers on farms and ranges January 1 are estimated as follows: Horses, 20,182,000; mules, 1,999,000; milk cows 23,721,000; other cattle 42,534,000; swine, 50,635,000 and sheep, 45,997,000.

The results of the 1920 census of livestock have been issued for a few states only; the two sets of figures represent and crop estimates are not made from the same basis and therefore are not comparable in that the bureau of crop estimates figures are the result of applying nearly estimated changes to the census figures of 1919, which were taken on April 15, instead of on January 1, as was done in 1920.

No attempt has been made to readjust the bureau's 1920 figures to the census basis in the few states for which census figures have been published. Readjustments will be completed until the census will be complete for all states.

The total value of livestock has declined \$27,535,000, or 26.7 per cent, during the year; that is, from a total of \$50,714,000 on January 1, 1920, to \$23,179,000 on January 1, 1921. This decline is due chiefly to the reduction in the number of horses, which were valued at \$1,147,000, a reduction of \$162,927,000, or 22 per cent as compared with a year ago.

Milk cows have declined 24.8 per cent in value per head, from \$55.11 in 1920, to \$41.45 in 1921. The total value of milk cows has declined \$1,850,000, or 25.8 per cent, from \$2,010,128,000 to \$1,491,909,000.

Other cattle have declined 24.2 per cent in value per head, from \$42.22 in 1920, to \$31.45 in 1921. The total value of other cattle has declined \$1,850,000, or 20.4 per cent, from \$1,924,185,000 to \$1,346,665,000.

All cattle have thus declined \$1,195,748,000, or 23.8 per cent, from \$5,049,873,000 to \$3,854,125,000.

Swine have declined in value per head 31.7 per cent, from \$19.01 in 1920, to \$12.99 in 1921. The total value of swine has declined \$2,047,000, or 35.6 per cent, from \$5,825,000 to \$3,778,000.

Sheep have declined in value per head 29.1 per cent, from \$10.52 in 1920, to \$7.46 in 1921. The total value of sheep has declined \$2,047,000, or 41.8 per cent, from \$4,909,000 to \$2,862,000.
